# **CVT Transmission Vehicles**

---

## ***Post Sale Inspection Pricing Addendum for CVT Transmission Vehicles***

**As of 10/23/2023 there will be an additional charge for a PSI on any vehicle with a CVT transmission. This will be above and beyond the current 7- and 14-day PSI rates for these specific vehicles.**

**As a buyer you can choose to pay the normal rate for a 7- or 14-day PSI, but it will not cover the transmission on any vehicle with a CVT transmission. If you do want it covered in the PSI, you can choose to pay the additional \$200.**

**Any vehicle with a CVT transmission that is still under the manufacturers powertrain warranty that passes PSI and has any problem in the 7- or 14-day window, will not be eligible to be returned to the auction as a buyback, it will be the buyer's responsibility to take it to a dealership to get repaired.**
